# SUBJECT INDEX—Volume 7 (1982)

In Volume 7, Number 1 (Jan.–March) contains pages 1–48; Number 2 (April–June), 49–92; Number 3 (July–Sept.), 93–134; and Number 4 (Oct.–Dec.), 135–180 and a supplement volume (pages S1–S194).

Abbott lecture
  Perspectives in spinal anesthesia, 55
Abstracts, 19, 32, 88, 102, 124, 130, 166
  Seventh Annual Meeting of ASRA, 72
Acid aspiration in labor, S60
Analgesia
  continuous intraspinal narcotic, implantable infusion system for, 110
  epidural
    catheter obstruction in, 164
    ischemic heart disease and, S8
    neurologic complications with obstetrics and, 119
  postoperative, parenteral opiates for, 144
  thoracic epidural, glucose, cortisol, insulin, and glucagon responses to surgery and, 107
Anesthesia
  cardiovascular effects of, S1
  catecholamine levels in, S49
  hospitalization time and, S151
  immunocompetence and, S68
  outpatient surgery and, S156
  psychological alterations after, S141
  regional blood flow changes and, S24
Anesthetic technique
  postoperative pulmonary complications in geriatric patients and, S122
  surgical sequelae and, surgeon's view of, S178
Anesthetics, local
  chronotropic and inotropic effects on guinea pig atria, 149
Anoxia, mammalian myelinated and unmyelinated nerve fibers and, 2
Antithrombotic activity of regional anesthesia, S89
Arterial pressure response to surgery, S61
ASRA Regional Anesthesia quiz, 48, 92
Atria, guinea pig, chronotropic and inotropic effects of local anesthetic agents on, 149
Attitudes and experiences of patients with regional vs general anesthesia, S163

Book review, 165
Block
  celiac plexus, spinal cord ischemia and, 66
  epidural
    postoperative pain relief and, 135
    thromboembolism and, S84
  lumbar paravertebral, intrathecal Sarapin following, 42
  spinal, postural headache after, obstetric complication as, 131
  stellate ganglion
    ECG changes in, 157
    side-port needles for, 160
  sympathetic
    frostbite and, 128
    regional intravenous guanethidine for, 52
Blood flow, regional, anesthesia-induced changes in, S24
Blood gas changes, ventilation for prevention of local-anesthetic-induced feline convulsions and, 103
Blood loss, thromboembolism and, S84
Blood and tissue glucose and glycolytic metabolite levels in surgery, S57
Blood viscosity, postoperative psychological sequelae and, S148
Bupivacaine
  cardiac effects of, 149
  feline convulsions due to, ventilation for blood gas changes in, 103
  frostbite and, 128
  postoperative pain relief and, 135
  spinal anesthesia, factors influencing, 20
  spinal ganglion vulnerability and, 7

Cardiac effects
  *See also* Cardiovascular effects
  local anesthetics, 149
  stellate ganglion blockade, 157
Cardiopulmonary bypass, lidocaine and, S34
Cardiovascular effects
  anesthesia and surgery, S1
  lumbar epidural and spinal anesthesia and, S21
Cardiovascular toxicity, acute, procaine, chloroprocaine, and tetracaine in anesthetized ventilated dogs and, 14
Case report
  Effective management of frostbite with sympathetic blockade, 128
  Epidural anesthesia for cesarean delivery of quadruplets: acid-base and local anesthetic concentrations, 69
  Epidural catheter obstruction, 164
  Epidural meperidine for phantom limb pain, 39
  Importance of examination prior to nerve block procedures, 126
  Intrathecal Sarapin following a lumbar paravertebral block, 42
  Obstetric complication as cause of post-spinal-block postural headache, 131
  Spinal cord ischemia as a complication of celiac plexus block, 66
  Subcutaneous emphysema as a result of loss-of-resistance identification of epidural space, 44
Cats, paralyzed, local-anesthetic-induced convulsions in, ventilation for prevention of blood gas changes in, 103
Catecholamine levels
  anesthesia and surgical stress and, S49
  surgery and, S61
Catheter, epidural, obstruction of, 164
Cefoxitin, regional blood flow changes and, S24
Celiac plexus block, spinal cord ischemia and, 66
Cephalalgia, spinal anesthesia and, 20
Cesarean delivery of quadruplets, epidural anesthesia in, 69
Chlormethiazole, regional blood flow changes and, S24
Chloroprocaine
  cardiac effects of, 149
  cardiovascular toxicity of, anesthetized ventilated dogs and, 14
  different concentrations of, intravenous regional anesthesia for lower limb operations and, 29
2-Chloroprocaine, neurologic complications with, obstetric epidural analgesia and, 119
Clinical report
  Neurologic complications following epidural analgesia in obstetrics, 119
  Regional anesthesia in pediatric patients, 64
Cocaine, cardiac effects of, 149
Complications
  acute cardiovascular toxicity of procaine, chloroprocaine, and tetracaine in anesthetized ventilated dogs as, 14
  cephalalgia and hypotension as, spinal anesthesia and, 20
  convulsions, local-anesthetic-induced in feline, 103
  intrathecal Sarapin and, 42
  large-bowel surgery and, S99
  multiple gestation as, cesarean delivery of quadruplets with epidural anesthesia and, 69
  neurologic, epidural analgesia in obstetrics and, 119

postoperative infection, S68
postoperative pulmonary, geriatric patients and, S122
post-spinal-block headache, 131
spinal cord ischemia in celiac plexus block, 66
Convalescence, postoperative fatigue and, S144
Convulsions, local-anesthetic-induced feline, ventilation for prevention of, blood gas changes in, 103
Coronary hemodynamic effects of general anesthesia and surgery, S8
Cortisol response to surgery, thoracic epidural analgesia in, 107
Dogs
anesthetized ventilated, cardiovascular toxicity of procaine, chloroprocaine, and tetracaine in, 14
antithrombotic activity of local anesthesia in, S89
Dorsal root ganglion, vulnerability of, bupivacaine, etidocaine, and lidocaine in, 7
Droperidol, ischemic heart disease and, S8

Emphysema, subcutaneous, loss-of-resistance identification of epidural space and, 44
Endocrine-metabolic response to surgery, general and regional anesthesia and, S38
Enflurane, ischemic heart disease and, S8
Editorial, Passing the torch, 93
Electrocardiographic changes in stellate ganglion blockade, 157
Epidural analgesia
ischemic heart disease and, S8
obstetrics and, neurologic complications with, 119
thoracic, glucose, cortisol, insulin, and glucagon responses to surgery and, 107
Epidural anesthesia
cesarean delivery of quadruplets and, 69
lumbar, cardiovascular effects of, S21
monocyte and lymphocyte functions during and after surgery and, S75
Epidural block
postoperative pain relief and, 135
thromboembolism and, S84
Epidural catheter obstruction, 164
Epidural meperidine for phantom limb pain, 39
Epidural narcotics, postoperative pain and, 140
Epidural space, subcutaneous emphysema as result of loss-of-resistance identification of, 44
Erratum, 6, 172
Etidocaine, spinal ganglion vulnerability and, 7

Fatigue, postoperative, S144
Fentanyl, ischemic heart disease and, S8
Frostbite, sympathetic blockade in, 128

Gastrointestinal function after surgery, S105
General anesthesia
controlled ventilation in, thromboembolism and, S84
coronary hemodynamic effects of, S8
endocrine-metabolic response to surgery and, S38
monocyte and lymphocyte functions during and after surgery and, S75
regional vs, S163
Geriatric patients
postoperative pulmonary complications in, anesthetic technique in, S122
psychological alterations after anesthesia and surgery in, S141
Glucagon response to surgery, thoracic epidural analgesia, 107
Glucose and glycolytic metabolite levels, blood and tissue, surgery and, S57
Glucose response to surgery, thoracic epidural analgesia in, 107
Guinea pig atria, chronotropic and inotropic effects of local anesthetic agents on, 149

Halothane, ischemic heart disease and, S8
Headache, post-spinal-block postural, obstetric complication, 131
Hemodynamic effects, coronary in general anesthesia and surgery, S8
Hemodynamic measurements in, anesthesia and surgery, S1
Hospitalization time, anesthesia and, S151
Hypotension, spinal anesthesia and, 20

Immunocompetence, anesthesia and surgery effect on, S68
Implantable infusion system for continuous intraspinal narcotic analgesia, 110
Infection, postoperative, S68
Insulin response to surgery, thoracic epidural analgesia in, 107
Intensive care units, S175
Ischemia, spinal cord, celiac plexus block and, 66
Ischemic heart disease, epidural analgesia in, S8
Isoflurane, ischemic heart disease and, S8

Labat address
Nothing new under the sun, 95
Labor, stress response during, S60
Large-bowel surgery, complications in, S99
Letters to the editor, 46
Frequency-dependent block in man? 133
Identification of epidural space, 171
Intravenous guanethidine, 172
Phantom limb pain, 170
Tetracaine and dextrose, 171
Lidocaine
antithrombotic activity of, S89
cardiac effects of, 149
cardiopulmonary bypass and, S34
feline convulsions due to, ventilation for blood gas changes in, 103
in vitro inhibition of neutrophils and, S80
spinal ganglion vulnerability and, 7
Local anesthesia. *See* Regional anesthesia.
Loss-of-resistance identification of epidural space, subcutaneous emphysema as result of, 44
Lower limb surgery, different concentrations of intravenous chloroprocaine for, 29
Lumbar epidural anesthesia, cardiovascular effects of, S21
Lymphocyte functions during and after surgery, general and epidural anesthesia and, S75

Meperidine
epidural, phantom limb pain and, 39
regional blood flow changes and, S24
Mepivacaine, cardiac effects of, 149
Monocyte functions during and after surgery, general and epidural anesthesia and, S75
Morphine, continuous intraspinal, implantable infusion system for, 110
Mortality studies, S172
Motor pathway blockade by bupivacaine, etidocaine, and lidocaine, 7

Naloxone, S115
Narcotics, epidural, postoperative pain and, 140
Needle, side-port, for stellate ganglion blockade, 160
Nerve block procedures, examination prior to, 126
Nerve fibers, mammalian myelinated and unmyelinated, differential tolerance to oxygen lack, 2
Neurolept anesthesia, S19
Neurologic complications with epidural analgesia in obstetrics, 119
Neutrophil inhibition, lidocaine and, S80
Nutritional status, postoperative, S138

Obstetrics
epidural catheter obstruction in, 164
neurologic complications with epidural analgesia and, 119
post-spinal-block headache in, 131
Opiates, parenteral, postoperative analgesia and, 144
Outpatient surgery, anesthesia and, S156
Oxygen, lack of, differential tolerance of mammalian myelinated and unmyelinated nerve fibers to, 2

Pain
phantom limb, epidural meperidine for, 39
epidural narcotics in, 140
parenteral opiates for, 144
postoperative
epidural block in, 135
relief of, S110
Paracetamol, S115
Parenteral opiates, postoperative analgesia and, 144
Pediatric patients, regional anesthesia in, 64
Phantom limb pain, epidural meperidine for, 39
Physiologic disposition of local anesthesia, 33
Postoperative analgesia, parenteral opiates for, 144
Postoperative fatigue and convalescence, S144
Postoperative pain relief, S110
epidural block in, 135
epidural narcotics in, 140
Postoperative nutritional status, S138
Prilocaine, cardiac effects of, 149
Procaine
cardiac effects of, 149
cardiovascular toxicity in anesthetized ventilated dogs, 14
Psychological alterations after anesthesia and surgery, S141
Pulmonary changes after surgery, S119
Pulmonary complications
postoperative, in geriatric patients, S122
surgical stress and, S133

Quadruplets, cesarean delivery of, with epidural anesthesia, 69

Regional anesthesia
anesthesia resident programs and, 26
antithrombotic activity of, S89
chronotropic and inotropic effects on guinea pig atria, 149
endocrine-metabolic response to surgery and, S38
feline convulsions in, ventilation for prevention of blood gas changes, 103
general vs, S163
in vitro effects of verapamil and, 114
intravenous chloroprocaine in, lower limb surgery, 29
mortality studies on, S172
pediatric patients and, 64
physiologic disposition of, 33
Resident programs, anesthesia, regional anesthesia and, 26
Review article
Physiologic disposition of local anesthetics, 33

Sarapin, intrathecal, in lumbar paravertebral block, 42
Sensory pathway blockade by bupivacaine, etidocaine, and lidocaine, 7
Side-port needles for stellate ganglion blockade, 160
Somatic and visceral afferents, blocking of, S188
Spinal anesthesia
cardiovascular effects of, S21
crystalline vs premixed liquid tetracaine in, 49
factors influencing, 20
perspectives in, 55
postural headache after, obstetric complication, 131
Spinal cord ischemia as complication of celiac plexus block, 66
Spinal ganglion, vulnerability to bupivacaine, etidocaine, and lidocaine, 7
Stellate ganglion blockade
ECG changes in, 157
side-port needles for, 160
Stress, surgical
catecholamine levels in, S49
pulmonary dysfunction and, S133
Surgery
arterial pressure response to, S61
cardiovascular effects of, S1
catecholamine levels in, S49
catecholamine response to, S61
coronary hemodynamic effects of, S8
effect on blood and tissue glucose and, glycolytic metabolite levels, S57
endocrine-metabolic response to, general and regional anesthesia and, S38
gastrointestinal function after, S105
glucose, cortisol, insulin, glucagon responses to, thoracic epidural analgesia and, 107
immunocompetence and, S68
large-bowel, complications, S99
monocyte and lymphocyte functions during and after general and epidural anesthesia, S75
outpatient, anesthesia in, S156
psychological alterations after, S141
pulmonary changes after, S119
Surgical sequelae, anesthetic procedures and, surgeon's view of, S178
Sympathetic blockade
frostbite and, 128
regional intravenous guanethidine and, 52

Tetracaine
cardiac effects of, 149
cardiovascular toxicity in anesthetized ventilated dogs, 14
crystalline vs premixed liquid, spinal anesthesia and, 49
spinal anesthesia, factors influencing, 20
Thoracic epidural analgesia, glucose, cortisol, insulin, and glucagon responses to surgery and, 107
Thromboembolism, blood loss, S84
Tissue uptake and release of local anesthetics, 33
Toxicity, cardiovascular, of procaine, chloroprocaine, and tetracaine in anesthetized ventilated dogs, 14

Ventilation, blood gas changes in local-anesthetic-induced feline convulsions, 103
Verapamil, local anesthetic effects on isolated rat sciatic nerve, 114
